A-JUST-A-BUBBLE

Cast your favorite fly, jig or live bait like a shot with extreme accuracy with A-Just-A-Bubble. Fish as a stationary float or use as a slip float to obtain desired depth. Just add proper amount of water for optimal performance. The **ROUND** body style allows for a larger profile on top of the water, lending itself to far greater visibility. The **LIGHTED A-Just-A-Bubble** includes a two pack of 1.5" powdered Glow Sticks. All of our premium quality bubbles are made in the U.S.A.

Package

Blistered= Item# + Color + '-B'

Bulk= Item# + Color

Examples:

- 1 x AB-1B = 1 dozen blistered 1/4oz Clear
- 1 x AB-1 = 1 box of 100 bulk 1/4 oz Clear
- 1 x LABL-1B = 1 dz blistered 3/8oz Clear/Lighted
- 1 x RAB-3 = 1 box of 50 bulk Round Trans. Red

How To:

1) Narrow end towards fishing rod.

2) Open bubble by pulling on clear plug atop large end.

3) With bubble open, insert light stick and water for extra weight to assist in casting.

4) Gently place the plug back in the bubble.

5) Slide bubble up the line to create the desired leader length.

6) Simply twist the plug until the tube snaps over. This fixes the bubble to the line with no stops or damage!

B-52 Super Sounder

The hard plastic B-52 Super Sounder is a stronger, louder, brighter popping cork. With rattle beads inside and brass beads outside the plastic float transmits directly into the water, whereas foam corks insulate sound and just click on the surface. The B-52 Super Sounder is the most effective popping cork on the market.

Item #	Size	Color	Package Options
B52-SS	7.25"	R, P, CH, O	1 per blister card

QUICK FLOAT

The Quick Float is a water fillable casting float that can be quickly and easily attached to the line with no cutting or line damage. This easy on, easy off casting float allows for more fishing and less set up! Premium quality bubbles made in the U.S.A.

Actual Size

Item #	Size	Color	Package Options
RQF	35" 2"	C, R, TG	2 pack or 10 pack with Header 50 pack bulk

Align notches in rubber with slot in Quick Float. Insert line through slot in bobber and in rubber barbell ends.

Adjust the Quick Float to the desired position on line, then twist the rubber ends multiple times to secure to the line.

Once secured to line, make sure the slots in the rubber are not aligned with the slot in the Quick Float.

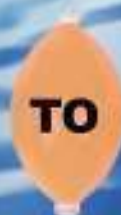

Actual
Size

TOUGH BUBBLE

Made of tough Butyrate plastic here in the good old U.S.A., this bubble will withstand a whole lot more than other wimpy imitations! The Tough Bubble is water fillable for greater control and longer casting distances. It is the perfect fit for fishing a fly or bait, live or artificial.

RATTLE BOMB

This large 3" float is loaded with rattle beads for excellent sound attraction. The bright, distinct color combos allow for great visibility at distance. Made from tough Butyrate plastic in the U.S.A.

Item #	Size	Color	Package Options
B52	3"	See Above	2 pack with Header

TORPEDO FLOAT

Cast flies, poppers, live bait, troll etc. This go to float has been time tested and proven. The **STEALTH RATTLER** is a Torpedo Float with the added benefit of sound. This loaded float can be popped to create the perfect pitch to effectively attract fish. These highly versatile floats are made from premium quality plastic and components in the U.S.A.

CATCH MORE FISH!

Using Science to Gain a Competitive Edge

Rig the CAGI with the enclosed propeller facing the rod and the bait/lure 12"-18" back. Add swivels at to prevent line twist.

Item #	Size	Color	Package Options
CGI	2"	1, 2, 4, 5	1 per blister card

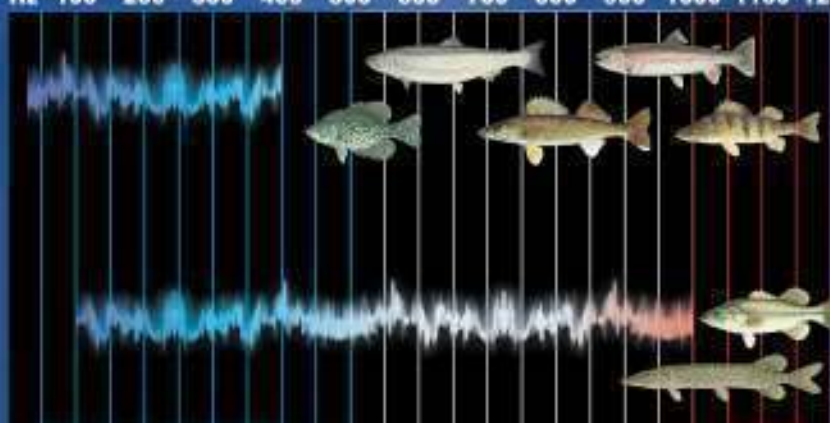

CAGI SONIC ATTRACTOR

Designed and tested by a former NASA physicist, the Sonic Fish Attractor has been scientifically proven to work! The Sonic Fish Attractor is a sound emitting device that generates frequencies in the narrow band that has been proven to be what fish can 'hear' and respond to. It makes every lure better!

Salmon, Trout, Crappie, Walleye, Perch respond at 30-400 Hz

Bass and Pike respond at 100-1000 Hz

Hz 100 200 300 400 500 600 700 800 900 1000 1100 1200

1-3 mph

4-8 mph

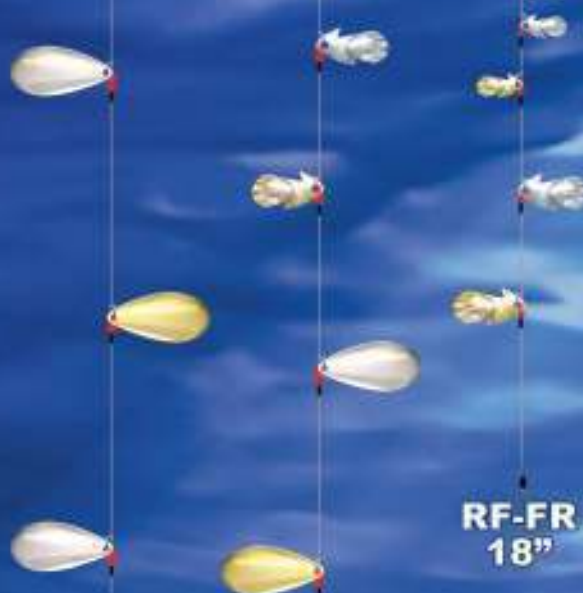

9+

As the CAGI goes faster it produces higher frequencies. Keep the retrieval speed within the limits of the fish being angled. This means 1-2.5 mph for most freshwater fish.

Little Slim Willie

This flasher is unique from others because the larger blade is at the rear resembling a striking fish feeding on smaller minnows. The design of the Little Slim Willie allows for maximum flash and minimum drag. The rudder allows this troll to run approx. 6'-10'.

Vance's Spiral Wrap Rods

These rods were designed from the ground up to be the ultimate trolling rods. Made from E-Glass blanks these two piece rods feature a high quality spigot ferrule and spiral wrapped guides. The E-Glass rod is highly parabolic and acts as a big shock absorber, exactly what is needed when trolling. The Spiral wrapped guides start at the top and rotate around the rod so the tip faces down. This will allow the use of a casting reel, while still keeping the tip down.

Item #	Size	Grips	Package Options
