Item #	Size	Color	Package Options
EX02	1.75"	See Chart	1 per poly bag w/ header

The EXO Skull Fly features a hard plastic head with a large holographic eye. The body is made from a combination of glow in the dark silicone, colored silicone and holographic tinsel skirting. A hard plastic tube creates a backbone for the fly that creates a full bodied presentation and doubles as a scent dispenser. Rigged with double red hooks and 30" leader, the EXO Skull Fly is dangerously effective on multiple species.

FLY-N-BUBBLE

Pairing our most popular floats with 5 assorted hand tied flies is pretty much a no-brainer. Offering a five fly assortment and one float per blister card.

Wooley

FQF	Quick Float	1=Clear, 5=Tran Green	1 Float + 5 Flies per Blister D=Dry, S-Streamer, N-Nymph, WB=Wooley

The Original clearboard®

THE CHAMPION OF PLANER BOARDS Virtually Indestructible

The Original ClearBoard is the lightest, best pulling planer board available. Tested with all types of light and hard pulling baits at speeds up to 2.5 MPH. The ClearBoards run at or near 90 degrees and ride high in the water with the nose tipped up. The ClearBoards are incredibly stealthy, which is a huge advantage when targeting fish that spook easy.

Sold in Pairs: 1x Left/Port Board, 1x Right/Starboard Board per box Made in the USA!

State of California

40-X

releasefloat

with Adjustable Tension Release Clips

Actual
Size

The 40-X Release Float makes it easy to fish the 'dead' water behind the boat when using planer boards. With a swivel head the 40-X is always in the perfect position to release. Comfortably hold weights and baits up to 2.5oz. The 40-X is the ultimate controlled depth float.

Made in the USA!

⚠ 40-X	2"x4"	Adjustable Light	2 per poly bag w/ header

AJUSTA BUBBLE

Cast your favorite fly, jig or live bait like a shot with extreme accuracy with A-Just-A-Bubble. Fish as a stationary float or use as a slip float to obtain desired depth. Just add proper amount of water for optimal performance. The ROUND body style allows for a larger profile on top of the water, lending itself to far greater visibility. The LIGHTED A-Just-A-Bubble includes a two pack of 1.5" powdered Glow Sticks. All of our premium quality bubbles are made in the U.S.A.

Package

Blistered= Item# + Color + '-B'

Bulk= Item# + Color

Examples:

- 1 x AB-1B = 1 dozen blistered 1/4oz Clear
- 1 x AB-1 = 1 box of 100 bulk 1/4 oz Clear
- 1 x LABL-1B = 1 dz blistered 3/8oz Clear/Lighted
- 1 x RAB-3 = 1 box of 50 bulk Round Trans. Red

How To:

1) Narrow end towards fishing rod.

2) Open bubble by pulling on clear plug atop large end.

3) With bubble open, insert light stick and water for extra weight to assist in casting.

4) Gently place the plug back in the bubble.

5) Slide bubble up the line to create the desired leader length.

6) Simply twist the plug until the tube snaps over. This fixes the bubble to the line with no stops or damage!

B-52

SUPER SOUNDER

The hard plastic B-52 Super Sounder is a stronger, louder, brighter popping cork. With rattle beads inside and brass beads outside the plastic float transmits directly into the water, whereas foam corks insulate sound and just click on the surface. The B-52 Super Sounder is the most effective popping cork on the market.

Quick Float

The Quick Float is a water fillable casting float that can be quickly and easily attached to the line with no cutting or line damage. This easy on, easy off casting float allows for more fishing and less set up! Premium quality bubbles made in the U.S.A.

Item #	Size	Color	Package Options
RQF-35	1.6" L 1.2" Diam	C, R, TG	2 pack or 10 pack with Header 50 pack bulk

Align notches in rubber with slot in Quick Float. Insert line through slot in bobber and in rubber barbell ends.

Adjust the Quick Float to the desired position on line, then twist the rubber ends multiple times to secure to the line.

Once secured to line, make sure the slots in the rubber are not aligned with the slot in the Quick Float.

Tough Bubble

Made of tough Butyrate plastic here in the good old U.S.A., this bubble will withstand a whole lot more than other wimpy imitations! The Tough Bubble is water fillable for greater control and longer casting distances. It is the perfect fit for fishing a fly or bait, live or artificial.

CAGI Sonic Fish Attractor

Using the Science of Sound
to Catch More Fish!

Designed and tested by a former NASA physicist, the Sonic Fish Attractor has been scientifically proven to work! The Sonic Fish Attractor is a sound emitting device that generates frequencies in the narrow band that has been proven to be what fish can 'hear' and respond to. It makes every lure better!

Made from soft wood based plastic, the Sonic Attractor has a unique resonance that other plastics cannot achieve. There are no batteries to purchase and on average the Sonic Attractor will go 60 to 80 hours of being pulled through the water before it needs to be replaced. The constant vibration and buzz of the Sonic Attractor draws fish in from far greater distances than other methods of attraction.

Little Slim Willie

This flasher is unique from others because the larger blade is at the rear resembling a striking fish feeding on smaller minnows. The design of the Little Slim Willie allows for maximum flash and minimum drag. The rudder allows this troll to run approx. 6'-10'.

Item #	Size	Color	Package Options
⚠ FLSWN	17" 1 Lg. 2 Sm Blades	Nickel	1 per blister card
⚠ FLSWC	17" 1 Lg. 2 Sm Blades	Nickel / Chartreuse	1 per blister card

Vance's Spiral Wrap Rods

These rods were designed from the ground up to be the ultimate trolling rods. Made from E-Glass blanks these two piece rods feature a high quality spigot ferrule and spiral wrapped guides. The E-Glass rod is highly parabolic and acts as a big shock absorber, exactly what is needed when trolling. The Spiral wrapped guides start at the top and rotate around the rod so the tip faces down. This will allow the use of a casting reel, while still keeping the tip down.
